Goodbye My Love

Lovehatehero

So, this isnt where you thought we'd be
You explained, and now you leave it up to me
I'll go, move on

We eat, we breath
Were living our dream

I'll find, replace you with a better mind
0oooo
They sing our songs, they cheer us on
You make it all worth while

So, this isnt where you thought we'd be
You explained, and now you leave it up to me

Farewell my love
Say hello to state lines, seperate our home lives
Farewell my love
Say goodbye to girlfriends, you'll text her from the road

Ooooo
They sing our songs, they cheer us on
You make it all worth while

They always come and go

Ooooo
They sing our songs
They cheer us on
You make it all worth while

Ooooo
They sing our songs, they cheer us on
You make it all worth while

Ooooo
They sing our songs, they cheer us on
You make it all worth while...
