

# Goodbye My Love

## Lovehatehero

So, this isnt where you thought we'd be  
You explained, and now you leave it up to me  
I'll go, move on

We eat, we breath  
Were living our dream

I'll find, replace you with a better mind  
Ooooo

They sing our songs, they cheer us on  
You make it all worth while

So, this isnt where you thought we'd be  
You explained, and now you leave it up to me

Farewell my love  
Say hello to state lines, seperate our home lives  
Farewell my love  
Say goodbye to girlfriends, you'll text her from the road

Ooooo  
They sing our songs, they cheer us on  
You make it all worth while

They always come and go

Ooooo  
They sing our songs  
They cheer us on  
You make it all worth while

Ooooo  
They sing our songs, they cheer us on  
You make it all worth while

Ooooo  
They sing our songs, they cheer us on  
You make it all worth while...
