

None of the Above

Steppenwolf

Do you feel a new desire? Is it someone you admire?
Irons in the fire that keep you occupied?
Do you need a little shove? Have you got no time for love?
Is it none of the above that keeps you from my side? But, oh how time has changed everything on my mind
For now that I am looking for you, I find that I've been left behind
Somewhere, somehow down the line
Lately, I've been wondering how did you slip by me? We've always stuck together babe
When trouble caught our eye
I 'been calling you for days, not a single sign of life
You really got me worried girl, are you still alive? Do you feel a new desire? Is it someone you desire?
Irons in the fire that keep you occupied?
Do you need a little shove? Have you got no time for love?
Is it none of the above that keeps you from my side?
