

Xplosion (feat. B-Real)

OutKast

Hello lord, it's me again, I just wanna make to love the whole globe
And all her girlfriends now don't that make ya mind move
Like smoke patterns, me on my way to Saturn wit a bomb
Numb be it view, or Saudi Shawty
I figure before the first gun blast, they know who gone win
Now won't that make us all fools
Like class clowns praying Private Ryan comes round
Sound travels at one thousand, one thirty, feet per second
Niggaz in the street they want it hurry
When niggaz start biting that's when 3000 starts to worry
A little knowledge from the college of wizard Ray Murray
Answer quick do you know what desire is? "Huh?"
Apparently not that's why you get what you got
Now answer this do you know what fire is? "Yeah"
The body of hot, the motivator of pots
Snot, spit, shit are characteristics of release
Ask your niece or nephew, you think we left you
What the future holds in its sweaty palms
Thank I'm finna vom? Ya move like ya mean it she'll cum
Prom night might excite a down right fight like
White blood cell to the common cold rebel
Night gets jealous of day play is no longer
The feelin gets stronger than Ammonia sticks inhale We just can't be amazed
Even if you pull the pin from your hand grenade
We just can't be amazed
Even if you pull the pin from your hand grenade
We just can't be amazed
Even if you pull the pin from your hand grenade
And we some home-made bombs
Finna blow right up in your face Look at the way you look at me I see it on your face
All your hate emanates but you still hesitate
Cause you want inside of my head but don't know how
To brainwash me to be a commercial clown
Fuck that I see the way you were,
see the way you smirk I'm catching you where you work
God only knows all the trouble that grows
Deep beneath my soul dealing with you assholes
Can I blast those who point the finger at me
Who criticize and talk shit so freely

Fuck XXL you're a size too small
I should hire Eminem so we can kill you all
Whether you live to talk shit about the Real
Then kiss my ass in person how much you love the Hill
I'm the outcast comin to blaze the grass
Outlaw due to my life that's come to pass
Dre, pass me the glass of wine
So I can pour it over my homies grave and mine
For all those who fallen and answered when God was calling
Jump into my ragtop and get all in
I'm the bomb, planted in your car why you frozen
Pop the tape in ignite the xplosion
The world is mine, the world is yours, the world is ours
The world is lost, the world is tossed We just can't be amazed
Even if you pull the pin from your hand grenade
And we some home-made bombs
Finna blow right up in your face
