## Jens Buchert

Close your eyes,  
I can't see you  
Anymore than i can see me here with you  
And I'll defy the whole galaxy  
Just to be here in your arms under the moon  
Just so you know  
I'm in over my head  
And i can't touch the ground  
But nothing is going to stop me now  
Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap around me  
Forever, forever for you  
Dry your eyes, little darling  
And I'll break just break like china doll in two  
And my disguise  
Little darling  
Is a hole inside my heart that's built for two  
Just so you know  
I'm in over my head  
And i can't touch the ground  
But nothing is going to stop me now  
Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap your arms around me  
Forever, forever, for you  
(Wohh!)  
This is the last time  
I won't apologise to you  
No matter what I've done  
This is the last time  
Looks like we won't pull through  
So baby let it shine  
So baby let it shine

So baby let it shine!  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap around me  
Forever, forever for you  
Wendy  
We'll defy the stars together on the moon  
For you singing  
Wendy  
So wrap around me  
Forever, forever for you...
