

# Get Up!

## Beverley Knight

Hear me, yeah, yeah  
Ah ha hmm hear what  
Hear what, hear what Watch the way that people change  
Flip the script and rearrange  
Hoping they can just belong  
Even when it's wrong uh-huh Searching for identity  
What's the next philosophy?  
What's the next big thing in town?  
That they can surround? Don't feel no shame  
Let them know you're not the same  
Don't feel no way  
You stand tall while people sway True to yourself  
Leave them fakers on the shelf  
Heed your calling  
Go and do your thing, hear me? Get up, get up and hold your ground  
You don't care what goes around  
Stand up, stand up and hold your ground  
Hold your ground Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me  
Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me Watch the way that people go  
To the cat that runs the show  
Next thing they are rolling thick  
Down with that clique, hmm Soon enough they act the same  
Walk the same and talk the same  
Until these so called inspired  
State the look is tired, let me hear you say Don't feel no shame  
Let them know you're not the same  
Don't feel no way  
You stand tall while people sway True to yourself  
Leave them fakers on the shelf  
Heed your calling  
Go and do your thing, hear me? Get up, get up and hold your ground  
You don't care what goes around  
Stand up, stand up and hold your ground  
Hold your ground Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me  
Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me Get up and stand up and hold it, get up, get up, yeah

You gotta, gotta, stand up, stand up  
Stand up for me, get up get up, alright  
You gotta, gotta, stand up, stand up, yeah, yeah, yeah Uh huh, uh huh, uh huh, uh huh, uh huh  
Uh huh, uh huh, uh huh, uh huh, uh huh  
Get up and stand up and hold it  
Get up and stand up and hold it  
Get up and stand up and hold it, feel it Don't feel no shame  
Let them know you're not the same  
Don't feel no way  
You stand tall while people sway True to yourself  
Leave them fakers on the shelf  
Heed your calling  
Go and do your thing, hear me? Get up, get up and hold your ground  
You don't care what goes around  
Stand up, stand up and hold your ground  
Hold your ground Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me  
Dem no bigger than us, no bigger than we  
No bigger than you, no bigger than me
