Another I Love You Kind Of Day

Charley Pride

Wake up and open your eyes breakfast's on and the sun is high
Off to work I'll kiss you goodbye I'll phone you at noon and I'll miss you till five
It's another I live you kind of day
Cause you're with me through everything I do and say
It's another I live you kind of day
It's another I live you kind of night it's on its way
[guitar]
Come home evening news is on feeling good with you in my arms

Come home evening news is on feeling good with you in my arms

How was the day honey mine was mourn

Turn off the world and turn some lovin' on

It's another I live you kind of day...

It's on its way
