

California, Here I Come

Al Jolson with Isham Jones

California, here I come
Right back where I started from
Where bowers and flowers bloom in the sun
Each morning at dawning birdies sing and everything
A sun kissed miss said, "Don't be late"
That's why I can hardly wait
So open up those Golden Gate
California, here I comeCalifornia, here I come
Right back where I started from
Where bowers and flowers bloom in the sun
Each morning at dawning birdies sing and everything
A sun kissed miss said, "Don't be late"
That's why I can hardly wait
So open up those Golden Gate
California, here I come
