That Never Stopped Me

Holly Dunn

Here's where I should say goodnight
Call me up some other time
A little kiss by the front porch light
That's what I should doAnyone with sense at all knows
How far and fast to fall
The world is full of broken hearted foolsThat never stopped me no I never hold back
I go playing on the railroad track
Even though there's a good chance
That a freight train is bearing downThat never stopped me from falling in love
Knowing better ain't good enough
I see the light but my eyes are shut
When a boy like you's around
Never stopped me before it won't stop me nowWhen I look into your eyes
I see all the warning signs
It's too soon to cross that line I will anyway
Fools rush in where angels stop guess
Which one of them I'm not
Even though I know I'm tempting fateThat never stopped me no I never hold back
I go playing on the railroad track
Even though there's a good chance
That a freight train is bearing downDon't lose your heart use your head
That's what everybody saysThat never stopped me no I never hold back
I go playing on the railroad track
Even though there's a good chance
That a freight train is bearing down
