Potter's Wheel

John Denver

The World is fast becoming younger, the news is all they've ever known they've seen the wars, the hurt, the hunger How will they choose when they are grown.

What do you tell forevers children when its their turn to hurt and heal

whatever spins the grim tornedo can also turn a potters wheeltake a little clay put it on the wheel give a little hint how god must feel,

give a little turn listen to it spin make it in the shape you want it in.Tell with you life the bloody story teach to they're dreams not burning steel

it's not in bombs where lies the glory but in what's shattered on the field

The potter's wheel takes love and caring skill and patience fast and slow,

the works it makes are easily broken once they've survived the potter's throwtake a little clay put it on the wheel give a little hint how god must feel,

give a little turn listen to it spin make it in the shape you want it in. Some day some children will be digging in some long forgotten ground and

they'll find our civilization or what's left of it to be found

they'll find the weapons of destruction but buried deeper in the hole

they'll find a message and a promise in the sand, the potter's bowltake a little clay put it on the wheel give a little hint how god must feel,

give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a little clay put it on the wheel give a little turn listen to it spin make it in the shape you want it in take a little clay put it on the wheel give a li

give a little turn listen to it spin make it in the shape you want it in. Earth and fire and wind conspire with human hand, and love, and fire take a little clay put it on the wheel give a little hint how god must feel, give a little turn listen to it spin make it in the shape you want it in.
