

# Into the Heart of Danger

## Battle Beast

Into the heart of dangerInto the heart of danger  
Tear down the walls and crash the gates  
Don't run away from yourself  
You're on a brave new journey nowClench your fist and put a grin on your face  
Just let go and you'll never be the sameWalk into the heart of danger  
And don't let the darkness enchain you  
Walk into the heart of danger  
Face your fearYou are the roar of a lion  
You are the raging storm  
Passion and pain, lost love  
Finding the will for victoryOne with the heroes who dwell in your soul  
You get stronger every time you fallWalk into the heart of danger  
And don't let the darkness enchain you  
Walk into the heart of danger  
Face your fearIt's not okay for others to decide  
Who you should be and how to live your lifeWalk into the heart of danger  
And don't let the darkness enchain you  
Walk into the heart of danger  
Face your fearWalk into the heart of danger  
And don't let the darkness enchain you  
Walk into the heart of danger  
Face your fear, oh  
Face your fear, oh  
Face your fear, oh  
Face your fear
