

# Got It

## Jaques Le Noir

Ooh

You caught me  
Lookin' at you  
Forgive me  
But if it's treasures  
You're seeking  
I'm the one who  
Could reach them  
It's not the kind of thing  
You wanna rush or hesitate  
It could go  
Far  
If you step to me  
Just come at me  
With honesty and you might be mine  
Oh

Hold on, got it good baby  
Believe me it's all good baby baby  
Hold on, got it good baby  
Believe me it's all good baby baby

Oh  
So soft and  
Effortlessly  
I'm fallin'  
So suddenly  
You touch me  
If it should be  
I just might let in  
Just think we could be anywhere  
If I could choose  
It'd be right here  
And I don't let go easily  
But something's taken over me

Hold on, got it good baby  
Believe me it's all good baby baby  
Hold on, got it good baby

Believe me it's all good baby baby

You're saying that our chemistry  
Is poetry in motion  
And whispering  
So preciously  
I second that emotion

Hold on, got it good baby  
Believe me it's all good baby baby  
Hold on, got it good baby  
Believe me it's all good baby baby

Good
