

Zelda

Pete Townshend

When you're at the movie
Don't pretend you're groovy
Don't be swayed and shell shocked
Hinder here the band out There is only waving
Men's are misbehaving
Jackie's on the craving
Rabbits on the raving Their on the way with a tooth force
Hella frat while the cats gone
Zelda waves from the backseat, Hello, hello
Zelda lays up the track sheet, hello hello Stand outside the door frame
Enter at your own game
Horse is trapped and ignorant
Of course, you'll wont get in here Zelda is only waving
Doesn't worth your saving
Mine is trapped in a cave in
Monday feels like a slave in Zelda is waving with her two hands
Freddy's is making up a new band
Zelda waves from the backseat, Hello hello
Zelda lays up the track sheet, hello hello I can't explain
Again and again
Ain't you afraid
Again and again Zelda waves from the backseat, Hello hello
Zelda lays up the track sheet, hello hello When we meet with a genius
You know he's never really seen us
He's come back to brandy
Well that's very handy Zelda's on the way man
To raise his kids, it's just amazing
Keith has joined the navy
Roger's little baby Zelda screams not to touch her
But one day someone will fuck her
Zelda waves from the backseat, Hello hello
Zelda lays up the track sheet, hello hello
