

American Errorist

NOFX

It's okay, allow yourself a little hate
Hatred is not so bad when directed at injustice
You can turn the other cheek
Just don't turn the other way
Enemy of the planet
We finally have a common hate
A reason to forget about our differences
And stand as a united front
It's up to us, we must expose
Humiliate American errorists
We'll start with one
The war has just begun
The war has just begun
