

WooHoo

Never Shout Never

Look to the sky
All I see is heavens
Look to my right
All I see are question marks
But when I look
To my left
I see you laughing there
Almond milk
on your upper lip from the lattes we just had
When you know
you know It's love
WooHoo... It's love Ten thousand million trillion little twinkling lights
All boiled down to one real real nasty fight
but sugar it's all good
'cause we know what's up
Let's piss on perfect,
Fantastic is enough
When you know
you know It's love
WooHoo... It's love (HEY! WE OK!)
We're all about it
(WE KNOW SOMETHING)
We're gonna shout
It's love(HAND GRENADES THEY)
Can't undo us
(??? IT'S)
Flowing through us
It's loveWhen you know
you know It's love
WooHoo... It's love
It's love.
