

Like Water

Bad Company

My life is like water
And I'm floating in the sea
But I have a root in the water
And it's reaching stretching endlesslyMy love flying in the sky
And far away from the water she lies
Sometimes big wave coming when I'm down
But soon I stand on up againMy life is like water
And I'm floating in the sea
My soul is a stream on the water
I was born reaching endlessly, yeah oh yeahMy life is like water
And I'm floating in the sea
My soul is a stream on the water
I was born reaching endlessly, oh reaching endlessly, ohAll my life
My life is like water
All my life
My life is like waterSaid I'm gonna reach out, reach out endlessly
Yeah I'm gonna reach out endlessly, oohLife is like, the life is like
The life is like water
Life is like, the life is like
The life is like water
