# You Move Me

## Robert Cray

When you come near
My eyes are glue
You've got control of me
It's sure an' hard to see
I'm just a foolOh you move me
You know you move me, baby
Oh you move me
Oh-o-oh you move meYou make me weak
It's hard to walk
And when you speak to me
I answer back to you in baby talkOh you move me
You know you move me, baby
Oh you move me
Oh-o-oh you move meI'm not confessing to nothing
But you don't already know
Let me tell you something
Don't you ever never let me go
Oh noI'm not confessing to nothing
But you don't already know
Let me tell you something
Don't you ever never let me go
Oh noI've lost my mind
Got no regrets
Because I know for sure
That I don't need a cure
You can surely betCause you move me
You know you move me baby
Oh you move me
Oh-o-oh you move meThe way you speak
You move me
The way you walk
And all the way you do your things
Really move me babe
Ahhh
You move me, babe
You move me
Ahhh
You move me
You got me doing things

I don't ever do
Move me
Oh, yes
