

Need Somebody

The Subdudes

I've been drivin this truck with a broken heart
can't stop drivin' once I
stop it might never stop
engine roar down from Detroit, Michigan
engine roar and roar, won't let no silence in
I need somebody, I need somebody, I
need somebody

Coffee girl could be the one I need
but all she can see is breakfast
number one, two and three
everybody, everybody seems like a stranger to me
but nobody, nobody could be as strange as me
when I need somebody, I
need somebody, I need somebody

Well they don't have to be somebody new
don't have to be a love so true
could even be somebody just like you
I need somebody who needs
somebody too

I need somebody, I need somebody
