The Day That I Die

Ricky Young

A lost a real good friend of mine, a couple o' days ago
Got my wheels spinning
I got laughing 'cause I know what he's doing now
Twenty thousand plus barefoot with his old guitar
Eating up the spotlight
Yeah that's exactly where he'd wanna be
One day when its meI'll be floating down the Waccamaw river in the Carolina sun, rigging up a line
Laid back having a nice cold beer with a friend I aint seen in a long long time
Watching all the water bugs scatter
Having the time of my life
On the day that I die
Hmmm Hmmmm
[CHORUS]If I dont wake up tomorrow tell mama I love her
Tell daddy I love him too
Little Brother
Buddy I couldnt be more proud o' you
May feel like a real bad dream and it may sting
But dont cry for me,
Dont cry for meI'll be floating down the Waccamaw river in the Carolina sun, rigging up a line
Laid back having a nice cold beer with a friend I aint seen in a long long time
Watching all the water bugs scatter
Having the time of my life
On the day that I die
Looking down at the sky
I say my last goodbye
I'll be smilinggggggg
I'll be smilingCause I'll be floating down the Waccamaw river in the Carolina Sun
Rigging up a line
Laid back having a nice cold beer with some friends I aint seen in a long long time
Watching all the water bugs scatter
Having the time of my life
On the day that I die
The day that I dieDont you cry, Dont you cry(Instrumental)
