

Then The Night Comes

Billy Idol

In this world of wild illusion
My room cold as the grave
Yes she knows I'll never pull my shade
Is it a fear, fear of madness
Or some strange alchemy
Is it a fear of fear itself
I think I'll get deranged
Then the night comes
I'm gonna be free
(Never enough then the night comes)
Then the night comes
I'm gonna be me
(Never enough then the night comes)
Never enough, haunts my psyche
Never enough, forever
Never enough as I begin to shroom
Here she comes so wild so horny
My Sony eyed Medusa
Shes acting strange, insane
Oh yeah, were gonna get deranged
Then the night comes
She's gonna be free
(Never enough then the night comes)
Yeah, then the night comes
I'm gonna be me
(Never enough then the night comes)
Then the night comes
Baby make me
(Never enough then the night comes)
If the devil comes
He's gonna tangle with me
(Never enough then the night comes)
I take some ghb, I feel love, joy
And wonderful ringing music
Now, I just got to be me
Were here now, embrace this madness
Were here now, for sorcery
Were here now, there is no sadness
So take this town and bring it down

When the night comes
I'm gonna be free
(Never enough then the night comes)
Then the night comes
I'm gonna be me
(Never enough then the night comes)
Then the night comes
Yeah, then she comes
(Never enough then the night comes)
Mmm baby
I'm gonna be free
(Never enough then the night comes)
Yeah yeah, then the night comes
Wooo, then the night comes
Come on, woo, then the night comes
Come on yeah
Then the night comes
(Never enough then the night comes)
Mmm, then the night comes
(Never enough)
Then the night comes
(Never enough then the night comes)
Alright then the night comes
(Never enough)
Eyes
(Never enough then the night comes)
We're alright
(Never enough)
When the night comes
(Never enough then the night comes)
Never enough then the night comes
Never enough then the night comes
Never enough then the night comes
