

When You're Sleeping

[Natalie Imbruglia](#)

The sun came up, desperate, desperate
The stars above held you back once again
Half way here, half way here, they whisper You talk so much sense
When you're sleeping, when you're sleeping
And you share all the secrets
And the mystery when you're sleeping I saw your tears, violet, violet
And it's been years
The sky's been crying for you
I found out beautiful things about you You talk so much sense
When you're sleeping, when you're sleeping, yeah
And you share all the secrets
And the mystery when you're sleeping So you go and wonder where you wander
Lose yourself to take us higher
And I'll be waiting for you when you're down You talk so much sense
When you're sleeping, when you're sleeping, yeah
And you share all the secrets
And the mystery when you're sleeping You talk so much sense when you're sleeping
When you're sleeping, yeah
And you share all the secrets
And the mystery when you're sleeping
