Runaway

Darin

Can I get a minute
And a couple of seconds
Of your time
I know you probably hear
This everyday
No I ain't trying to come up at you
With a slick line
No no just listen to what I gotta sayJust one look at you
And I can tell that we
Click so perfectly
But how can I put into words
The way you make me feel inside
Butterflies, goosebumps, euphoria
Putting my emotions to workI wanna love you
So girl if you want to
We can runaway
Baby we can runaway
I wanna love you
So girl if you want to
We can runaway
Baby we can runaway
AwayGirl I never seen an aura
With a brighter shine
I love the energy you radiate
No I don't wanna push myself
Across your borderline
But I just can't let you slip awayJust one look at you
And I can tell that we
Click so perfectly
But how can I put into words
The way you make me feel inside
Butterflies, goosebumps, euphoria
Putting my emotions to workI wanna love you
So girl if you want to
We can runaway
Baby we can runaway
I wanna love you
So girl if you want to
We can runaway

Baby we can runaway
AwayRunaway runaway
Runaway runaway
AwayI wanna love you
So girl if you want to
We can runaway
Baby we can runaway
I wanna love you
So girl if you want to
We can runaway
Baby we can runaway
Away
