Treasure

.38 Special

As children we're drawn to gold
And wonders of stories told
How riches are earned
Lessons are learnedAnd all ends well and life is that simple game
When love's finally comes our way
And if we're naive, we can't help believe
We'll conquer it allWe've found the strongest love
And hope is in our eyes
Let's not take it for granted
All that we're feelin' tonightWhen bands of gold and diamonds
Finally lose their shine
And all the stars and glitter fade away
There's no way to measure
The chance it could last forever
But it's ours right now to treasure on the wayTonight all the streets are lined
In moonlight and silver twine
If we make a wish
There's no telling if it's gonna survive'Cause even the strongest love
Needs a little help along the way
Let's not take it for granted
By letting it all slip awayWhen bands of gold and diamonds
Finally lose their shine
And all the stars and glitter fade away
There's no way to measureThe chance it could last forever
But it's ours right now to treasure
And I do treasure you
Yes, I doWhen bands of gold and diamonds
Finally lose their shine
And all the stars and glitter fade away
There's no way to measure
The chance it could last forever
But it's ours right now to treasure on the wayWhen bands of gold and diamonds
Finally lose their shine
Gonna lose that shine
