Last to Know

[Shades](#)

Huh, oh?
Ninety eight degrees of Shades
This is hotI don't wanna be the last to know
Love is dead and gone
Baby, please don't make me leave you
I can see the love that's in your heart
You don't want us to part
I don't wanna have to leave youI should have known better
Than to let you love me
(Yeah baby)
'Cause you, you got people talking
And it drives me crazy
Just the thought of her loving youI don't wanna be the last to know
Love is dead and gone
Baby, please don't make me leave you
I can see the love that's in your heart
You don't want us to part
I don't wanna have to leave youI tried to understand
That fact that you say you love me
And you, you've never hurt me
But it drives me crazy
To think that you loving her tooTell me you love me, tell me that you care
Don't ever leave me
And boy, don't go nowhere
Say that you love me till the end of time
