

# Bring Me Along

## Pepper

I, I, I, I wanna know why you act this way  
Today, today, today  
And I, I, I, I, I wanna feel how you feeling tonight  
Alright, alright  
So take away from your face all the make up  
I wanna see you  
And when you try to measure my respect, girl  
You can't use a ruler anyway  
So take away from your hand on the coffee cup  
I need you to believe  
That's it's coming in like the water's moving  
I want you always  
Bring me along, take me anywhere  
Bring me along, along  
Bring me along, take me anywhere  
Bring me along, along  
And I, I, I, I pull the white sheets from off my face  
Ooh, I love your ways, your ways, your ways  
And I, I, I, I, I want you to hear what I have to say  
Today, today, today

So wipe the morning from your eyes, little angel  
I wanna see you  
Though sometimes you try to push yourself away from me  
I hope that's something that you never do  
Take away from your hand on the coffee cup  
I need you to believe  
That's it's coming in like the water's moving  
I want you always  
Bring me along, take me anywhere  
Bring me along, along  
Bring me along, take me anywhere  
Bring me along, along  
You, with you, with you  
Bring me along, take me anywhere  
Bring me along  
Bring me along, take me anywhere  
Bring me along  
You, with you, with you, with you

Bring me along
