

Carry Me Down

Modern English

Slipping through the sand and the sand through your fingertips
Silence was the fear and the fear knew me all too well
Waiting at the edge of the sea, gazing at horizons quite naturally
There's something in the air but I know it can't
carry me
You know I won't believe you, you know I won't believe in time for now
There's something in the air but I know it won't carry me down
The grains of sand which grace the land, warm
against the sun
The calming sea holds mystery, pushing down and down
Riding with the tide, the sun relieves me
There's something in the air but I know it can't carry me
You know I won't believe you, you know I won't believe in time for now
There's something in the air but I know it won't carry me down
Carry me down
Questions left unsaid but instead turn their backs on me
Silence was the key and the sea learned its lesson well
Waiting on the edge of time, the world is on my doorstep
There's something in the air but I know it can't carry
me
You know I won't believe you, you know I won't believe in time for now
There's something in the air but I know it won't carry me down
There's something in the air but I know it can't
carry me
You know I won't believe you, you know I won't believe in time for now
There's something in the air but I know it won't carry me down
There's something in the air but I know it won't
carry me down
There's something in the air but I know it won't carry me down
There's something in the air but I know it won't carry me down
(You know I can't, I won't, I can't, I won't)
There's something in the air but I know it won't carry me down
(You know I can't believe it)
There's something in the air but I know it won't carry me down
(You know I can't, I won't, I can't, I won't)
There's something in the air but I know it won't carry me down
(You know I can't believe it)
There's something in the air but I know it won't carry me down
(You know I can't, I won't, I can't, I won't)
