

In a Whirlpool

Cactus World News

Hope rises, forgets who proved
Where the span up in the works?
This calls for a change of allegiance
A boy in toughs and averse? Paranoia will fill the gap
And the truth goes by unsaid
So I'll opt just to take my chance
With a whirlpool in my head Gotta believe in all that's goin' on
This is a sign your help is gonna come
Gotta believe in all that's goin' on
This is a sign your help is gonna come He talks when you stand up now
Or in any other place
It's just that you're trippin up
In a race within a race
My chance-strings? are telling me
That I will sink or swim
So I'm feeling a gentle voice
As your tenterhooks sink in Gotta believe in all that's goin' on
This is a sign your help is gonna come
Gotta believe in all that's goin' on
This is a sign your help is gonna come Dance into my old tune
It sucks me in against my will
This house has been standing too long
Time to shed another skin
Gotta believe in all that's goin' on
This is a sign your help is gonna come
Gotta believe in all that's goin' on
This is a sign your help is gonna come
It's gonna come right now!
Gotta believe in all that's goin' on
This is a sign your help is gonna come
Gotta believe in all that's goin' on
This is a sign your help is gonna come
