

Let The Good Times Roll

JD McPherson

I miss you so, every time I fall away
I miss you so, every time I fall away
Let the sky open up little darling, follow me when I go
 Let the sky open up, let the good times roll
 Why can't you see I'm standing by the door
 Why can't you see I'm standing by the door
 Open your home little darling, follow me when I go
Let the sky open up, let the good times roll I drift away underneath auspicious stars (x2)
 Let the sky open up little darling, follow me when I go
 Let the sky open up, let the good times roll
