Walk Through to This Side

Screaming Trees

Walk through to this side
I'm sinking in the pale light
Drawing breath in from thin air
When I think about the place I've beenWalk through to this side
Walk through to this sideYou stand on a tightrope
You take away and no one knows
The evening sun is dripping fire
And tears are burning into your sideWalk through to this side
Walk through to this side
Walk through to this sideYeah, music's coming down
No one is around
Got the doors open wide
Come on insideWalk through to this side
Been waiting such a long time
I've gone travelling everywhere
I turn around but you're not thereWalk through to this side
