

# In Your Arms

## Silent Force

I start to count the days  
When I walk away  
From the place we share, it is our home  
The strength you have in me appears from time to time  
I know you have to guard your heart and soul  
I am asking you  
Trust in me to see things through  
Please don't ever walk awayIn your arms  
I will always be  
Even though I'm far away from home  
In your arms  
Only place for me  
Tell me that you'll stay forever more: Forever moreWhen I'm many miles from you  
I'm a breath away from your heart  
You knew it was this way right from the start  
I thank from the depths  
Deep within my soul  
Hours seem so long when we're apartHear me asking you  
Trust in us to see things though  
Please don't ever walk away
