

Scarred For Life

Vice Squad

The face wasn't familiar
Unlike his introduction
What should have been an act of love
Becomes an act of destruction Shame will never heal you
There's nowhere left to hide
Scarred for life, scarred for life
Wither away little victim
Victim of the night
Scarred for life, scarred for life Something always brings it back
That unprovoked attack
A face contoured too obscene
Left you shivering and unclear There's always someone behind
That someone's only in your mind
Now repulsed by every touch
Someone hurt you far too much
