

# High Life

## Two Fingers

### High Life

Spoken part: Well, to live the lifestyle, I mean, the lifestyle of the rich & famous. That's the dream isn't it?

They say I was always destined for fortune and fame  
Now that I've gotten what I wanted everything's changed

And now I'm living the  
High life, high life  
I never looked back once I left my hometown

High life, high life  
I left behind everybody I know  
And now I'm singing like  
La la la la la la la la la la la la la

La la la la la la la la la  
And everybody sings along like  
La la la la la la la la la la la la la  
La la la la la la la la la

Be careful when you're wishing for the high life  
They say you have to come clean with your past to  
move on

All of my dreams have come true but something still  
feels wrong

But I'm still living the  
High life, high life  
I never looked back once I left my hometown  
High life, high life

Said goodbye to everybody I know  
And now I'm singing like  
La la la la la la la la la la la la la  
La la la la la la la la la  
And everybody sings along like  
La la la la la la la la la la la la la  
La la la la la la la la la

Be careful when you're wishing for the high life  
Everybody's dreaming of the high life  
It may look good from the outside  
But all I really wanted was a good life

With a memory reel of all the highlights  
All I want is to sleep good at night  
Look myself in the mirror knowing that I live right

So when I'm six feet in the ground  
I'll be singing like  
Ace Primo Verse:  
A million dollars in palm  
Not a worry in the world, that's everything I want  
I'm wishing I was there I feel like it's where I belong  
I wanna be able to go pay all the bills for my mom  
And make her smile  
Pick up my family and take em out on me  
And my over capacitated bank account  
Money is all I think about  
Of my life it's a highlight  
Tired of being low I'm ready for the high life  
Look at me now  
Look at how I get down  
Stubs and Wooten on my feet  
I'm the flyest youngin in town  
But I'm loosin it  
My vision has just become an illusion  
And Now  
my highlife is low again  
Struggling to hold it in I was on a mission  
And messed everything up making all the  
wrong decisions  
I know it's not the end Well then again it might be  
And it sucks god forbid you ever end up like me  
And I'll be singing like  
La la la la la la la la la la la la la  
La la la la la la la la la  
And everybody will be singing like  
La la la la la la la la la la la la la  
La la la la la la la la la  
Be careful when you're wishing for the high life (x5)
