

Rippin' Me Off

Skillet

Go, go, go
Go, go, go
Go, go, go
Go, go, go They say Jesus is doing nothing
They say evolution took His place
There's no God that created the world
And no Savior for the human race They say God is powerless
He laughs aloud as we cry in pain
It's just a part of His sick, sick humor
Forcing us to appreciate You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity
You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity You're rippin' me off
You're rippin' me off
You're rippin' me off
You're rippin' me off Go, go, go
Go, go, go
Go, go, go
Go, go, go They say God doesn't even exist
We made Him up just to numb our pain
They can't believe in a loving God
Who doesn't believe in atheists You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity
You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity You're rippin' me off
You're rippin' me off
You're rippin' me off
You're rippin' me off Go, go, go
Go, go, go
Go, go, go We take too much
We take too much
We take too much
We take too much You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity
You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity You say that God is dead but you're rippin' me off
You can't infect my mind with your vanity You're rippin' me off
You're rippin' me off
You're rippin' me off

You're rippin' me off
