

# Ladies And Gentlemen, Roll The Dice

## Kasabian/Kasabian

I tell you something isn't right  
The way I'm feeling kept me up all night  
I fix myself another drink  
I guess that's crazy I need time to think  
And all the good ones got away  
All the good ones gone to waste

And I take another hit  
And do I really get my joy stealing?  
All the TV's hypnotized  
All the loonies on the rise  
And old man what I got to tell you

Tonight Ladies and Gentlemen  
I roll the dice  
Just gimme that dice  
It's been so hard working for no one  
I roll the dice  
Just gimme the dice

Yeah Yeah  
Yeah Yeah

Wakey wakey rise and shine  
Put down your souvenirs I think it's time  
We've been dead behind the eyes  
Switching stations as our country dies

No matter what you do, you know  
The world it keeps on turning  
We never feel a thing  
Come on and meet me at the Carnival

Tonight Ladies and Gentlemen  
I roll the dice  
Just gimme that dice  
It's been so hard working for no one  
I roll the dice  
Just gimme that dice

Yeah Yeah  
Yeah Yeah

No matter what you do, you know  
The world it keeps on turning  
We never feel a thing
