A Smokey Room

Eliza Doolittle

You got your hair in a do
Yeah cause that's so original
You got your Gucci bag too
Yeah cause that's so original
Have you forgot yourself lately
I guess it doesn't matter if you got the right shades on.
You got your hair in a do
Yeah cause that's so original
Yeah cause that's so original
Yeah cause that's so original
You do the robot you do
Now everybody's going digital
But if you must know the truth
It's really not original

Have you forgotten your babies?
You really must remember not to leave them at the neighbours
You got your hair in a do
Yeah cause that's so original
Yeah cause that's so original
Yeah cause that's so original
Underneath that skin
You got to learn to let it in
Underneath that skin
you got to learn to let it in
Yeah cause that's so original
Yeah cause that's so original
Yeah cause that's so original
Yeah cause that's so original
