

# Voice

## XO

you call my name,  
deep in the coldest blackest night  
you save my life,  
i heard your voice deep in the night  
but in my nightmare,  
i start to scream,  
in my nightmare this is no dream  
you call my name,  
you save my life,  
deep in the night  
i heard your voice  
i saw the flames,  
i watch that memories turn to dust  
i saw them burn  
and walk away,  
not looking back  
but in my nightmare  
i start to scream,  
in my nightmare this is not dream,  
this is your dream  
you call my name,  
you saved my life,  
deep in the night

i heard your voice  
wake up, wake up, wake up  
in my nightmare  
i start to scream,  
in my nightmare  
this is no dream  
sometimes i wake,  
i see the fire in the night,  
it's only dreams  
i hear your voice deep in the night  
but in my nightmare  
i start to scream,  
in my nightmare  
this is no dream  
you call my name,

you saved my life,  
deep in the night,  
i heard your voice,  
you call my name,  
you saved my life,  
deep in the night  
i heard your voice.
