

# Life, Love & Laughter

**Donavon Frankenreiter**

Dont look back, it wont do any good  
Dont look ahead youll just be misunderstood  
Everything you need could be right in front of you  
It doesnt take much to see what is true  
They say we are going to die if we go on like this  
Who do you believe? Every story has a twist  
Take a look around, tell me what you see  
People in the world just trying to be free  
What about all those things you could have done but you dont?  
They say things happen for a reason, you dont do them, they wont  
Im lookin for life, love and laughter  
Everything in between and what happens after  
Im lookin for life, lookin for love, lookin for laughter  
Things are gunna change, they never stay the same  
Thats why were fighting a war but the people are to blame  
You can only stand up for what you believe  
Dont be blinded by the power of greed  
What about all those things you could have done but you dont?  
They say things happen for a reason, you dont do them, they wont  
Im lookin for life, love and laughter  
Everything in between and what happens after  
Im lookin for life, love and laughter  
Everything in between and what happens after  
Lookin for laughter  
We got everything we need  
All the money in the world, want to buy what we see  
Dreams are worth more than gold  
Some people hold on, some people let go  
The stars all come out at night  
The velvet sky, all so bright  
I feel so close to you  
Because I see what you see too  
Im lookin for life, love and laughter  
Everything in between and what happens after  
Lookin for life  
Im lookin for life, love and laughter  
Everything in between and what happens after  
What happens after!  
Im lookin for life, love and laughter  
Everything in between and what happens after  
What happens after?
