

Into the Sky

Switchblade Symphony

The pushersThe shakersThe feelersThe fakersThe loudnessThe silenceThe sweetness(The violence)My wings
will pull me up into the sky[words sung with megaphone]

[Step right up

And listen close

If you take that road

You'd better know

There are many signs

And many turns

Where you could ride

Into all you've learned]The feelings that I haveThey haunt me till I'm madThe heroesThe villainsThe
daring(Decisions)My wings will pull me up into the skyMy wings will pull me up into the sky[word sung with
megaphone]

[Step right up

And listen close

If you take that road

You'd better know

There are many signs

And many turns

Where you could ride

Into all you've learned]
