Hey Hey

Cross Canadian Ragweed

Look at you with your heart on a shelf
Sit at home get drunk by yourself
Call up a friend to ease your mind
Anything to pass the time
Chorus
Hey hey it's all gonna change
Well well when you turn around again
My my in the wink of an eye
Don't ask why as time goes byTake your dreams to the railroad tracks
I sure hope their comin back
Watch em roll away down the line
Just anywhere with your friend time ChorusGot no problems got no change
But nothin new it ain't that strange
Waitin for your ship to come in
Headed north with a southern wind ChorusTime and patience got their way
To brighten up your darkest day Hey yeah
Everything went wrong somehow
Kind of funny to laugh at now
Punched a hole in the wall in the night
Only to laugh in the morning light Chorus 2X
