

# Love Is A Train

Willie Nile

Love is a train go for a ride  
Love is a train step inside  
Love is a journey begins in the day  
It's a first-class ticket take it all the way  
It runs through the mountains rolls through the streams  
Underneath the covers of your wildest dreams  
Love is a train Love is a train with wheels of fire  
Passengers filled with steam and desire  
Love is a mystery without any clues  
You can stand in the station with a suitcase full of blues  
The engineer whistles the brakeman sings  
The conductor he knows how to deal with these things  
Love is a train  
Love is a train give it all you got  
You never know when it's gonna stop  
Love is a jungle love is a feast  
It can sanctify the wise man soothe the savage beast  
You could head out for the evening holding hands in the rain  
Wake up in the morning run over by a train  
You might start out at the engine ... like the way it feels  
Wind up in the station underneath the wheels  
Love is a train go for a ride  
Love is a train step inside  
Love is a train to carry me home  
Love is a train to the great unknown  
Love is a rainbow love is a gift  
A treasure to be shared till the sands of time shift  
Love is a nightmare love is a dream  
Go to sleep at night together wake up alone and scream  
Love is a journey a highway through the heart  
It can bring your world together it can blow your world apart  
Love is a power an unbelievable force  
It can derail the human race put it right back on course  
Love is a train without any track  
Once you're on board you ain't never going back  
Love is a train go for a ride  
Love is a train step inside
