Point of No Return

The Generators

This is the story of boys and girls
who fall from divine worlds
Sometimes the turn of the screw
makes everything come loose
Some try to hang on, some
wont for every long
In los angeles, the storys
going like this....Inside this plastic paradise
some things they dont seem right
Dont let the backdrop fool you,
Its helter skelter in southern california
Can you feel? do you see the intense amount of anxiety
All these people grapple for control
oh yeah theres no place like home1,2,3,4,5...whos gonna make it out alive?
6,7,8,9,10...think you are? then think againChorus:
Your never coming back,
your never coming back,
Your never coming back no way now
Its the point of no return,
Its the point of no return
