

# Honolulu

## Bigott

hey, hey!we met in a place where love is one.  
we've fallen together and now we're one.  
the future the future yeah it stays true.  
the future the future yeah it stays true.hey, hey!  
OOOOOOOOOOOOOOOOOOOOH.  
i'll teach you what you need to know.  
so the day that i'll finally go.  
my love will forever grow.oh darlin' if you could read my mind.  
oh heaven knows what you would find.  
these people these people are turning back.  
these people these people are turning back.OOOOOOOOOOOOOOOOOOOH.  
it'll teach you what you need to know.  
so the day that i'll finally go.  
our love will forever grow.the story only just it just began.  
and surely it shall never ever end.  
the story only just it just began.  
and surely it shall never ever end.  
the story only just it just began.  
and surely it shall never ever end.  
the story only just it just began.  
and surely it shall never ever end.  
and surely it shall never ever end.
