

Never Stops

Deerhunter

I had dreams that frightened me awake
I happened to escape but my escape
Would never come, would never come
Would never come, would never come I had plans to go away for days
To try and risk a pace that haunts my days
That haunts my days, haunts my days
Haunt my days, haunt my days I love winter, in my heart
It never stops, it never stops Oh, winter, oh, winter
Oh, winter, oh, winter It never stops, it never stops
It never stops, it never stops
It never
