

Hum Hallelujah (Live From UCF Arena)

Fall Out Boy

It's all a game of this or that
Now verses then
Better off against
Worse for wear
And you're someone
Who knows someone who knows someone I once knew
And I just want to be a part of thisThe road outside my house
Is paved with good intentions
Hired a construction crew
'Cause it's hell on the engine
And you are the dreamer
And we are the dream
I could write it better than you ever felt itSo hum hallelujah
Just off the key of reason
I thought I loved you
But it's just how you looked in the light
A teenage vow in a parking lot
Till tonight do us part
I sing the blues and swallow them tooMy words are my faith
To hell with our good name
A remix up your guts
Your insides x-rayed
And one day we'll get nostalgic for disaster
We're a bull
Your ears are just a china shopI love you in the same way
There's a chapel in a hospital
One foot in your bedroom
And one foot out the door
Sometimes we take chances
Sometimes we take pills
I could write it better than you ever felt itSo hum hallelujah
Just off the key of reason
I thought I loved you
But it's just how you looked in the light
A teenage vow in a parking lot
Till tonight do us part
I sing the blues and swallow them tooHallelujah, hallelujah, hallelujah, hallelu... (hum hallelujah)
Hallelujah, hallelujah, hallelujah, hallelu... (hum hallelujah)A teenage vow in a parking lot
Till tonight do us part

I sing the blues
And swallow them tooSo, hum hallelujah
Just off the key of reason
I thought I loved you
It's just how you looked in the light
A teenage vow in a parking lot
Till tonight do us part
A teenage love in a parking lot
Till tonight do us part
A teenage vow in a parking lot
Till tonight do us part
I sing the blues and swallow them too
