

Word Forward

Foo Fighters

Advisory - the following lyrics contain explicit language:

Goodbye Jimmy, farewell youth
I must be on my way I have had enough of you
I was a young man proud and true
Just a simple boy with nothing else to lose
Years that I've wasted these I owe you's
They're just fucking words
This is life or death
It's time to clear the air you better save your breath
Say have you heard
Say have you heard
The poison in my heart voices in my head
Years that I've waited these I owe you's
I meant every word for word for word forward
Word for word for word forward
Word for word for word forward
Word for word for word forward
But it's only words
I meant every word
They're just fucking words
Word for word for word forward
Word for word for word forward
Word for word for word forward
Word for word for word forward
Word for word for word forwardWord for word for word forward
Word for word for word forward
Word for word for word forward
