## Hercules and Love Affair

She carries news travels  
By rainbow  
Bearer of peace with a  
Message for all Today you'll dance  
You'll share each other  
Elders will stumble  
The babies will crawl Put down your weapons  
Put down your chosen ones  
Put on your best clothes  
Stand straight and tall Don't give up on your desire  
I can understand your thirst  
Put another one before you  
Help someone else first Today is a day for  
Someone else  
Today is a day for  
Someone else Today is a day for  
Someone else  
This moment is yours and you  
Can give it to someone else Put down your weapons  
Put down your chosen ones  
Leave expectations at the door You are your brother  
You are your sister  
Communication, start  
Giving more Don't stop believing  
Continue to give praise  
Your exaltation is a good thing Just take those teachings  
The ones of light  
Of celebration, and start to sing
