Hard Magic (Remix) [Magic Mix]

Divine

Tried to get away from you
When you said that I was wrong
I tried to get away from you
But your hold is much too strongYou've got a magic spell on me
And there's nothing I can do
You've got a magic spell on me
And I can't get away, get away from the....chorus
Hard, hard magic, hard magic you do
Hard, hard magic, hard magic with you
Shake, shake I could break everytime
Think, think give or take, losing my mind
With all the hard, hard magic, hard magic you do.I tried to break away from you
But I didn't wanna fight
I tried to break away from you
But your grip is much too tightYou've got a magic spell on me
And I'm stuck to you like glue
You put a magic spell on me
So I can't get away, get away, from the...(chorus)I've tried everything I know
I don't think I like your hard magic
I've struck every single blow
But the spell is much to hard for meOh my, I'm not scared, go away
Not another night with vampires
Hey is your bite any worse than your bark?
Oh, how divine, keep howlin' baby!
