

I Won't See You Tonight Part 1

Avenged Sevenfold

Cry alone I've gone away
No more nights no more pain
I've gone alone took all my strength
I've made the change I won't see you tonight Sorrow sank deep inside my blood
All the ones around me
I cared for and loved Building up inside of me
A place so dark, so cold It had to set me free
Don't mourn for me you're not the one to place the blame
As bottles called my name I won't see you tonight Sorrow sank deep inside my blood
All the ones around me
I cared for and most of all I loved But I can't see myself that way
Please don't forget me
Or cry while I'm away
(SOLO)
Cry alone I've gone away
No more nights no more pain
I've gone alone took all my strength
But I've made the change I won't see you tonight So far away I'm gone
Please don't follow me tonight
And while I'm gone
Everything will be alright
(SOLO)
No more breath inside
Essence left my heart tonight
No more breath inside
Essence left my heart tonight
