

# Don't Go Now

[Philip Selway](#)

In the quiet I need you, I think I hear you laugh.  
And in the crowds I see you, a face I know by heart. Don't go now, stay close, be with me.  
Don't go now, stay close, be with me. No, I can't remember, why we cared about.  
All the great frustrations, a treasure to me now. Don't go now, stay close, be with me.  
Don't go now, stay close, be with me. Another trace has faded, all the plans have changed.  
Before a passing moment, I'm here with you again. Don't go now, stay close, be with me.  
Don't go now, stay close, be with me.
