Falling Into History

Brie Larson

It don't matter what people say
I never did believe them
I no I no they know everything
I'll be alright by my self
And no one's gonna tell me
I'm defined, confined by love
And never did seem strange
I guess my heart was bound to change
I fell out, out of you and me
Your fading from you
And your falling into history
I fell out, out of you and me
Your fading from you
And falling into history
I never thought that I'd say
That I don't really miss you
I lived I breathe your breath through me
Time, has a way of passing by
Until I don't remember
Why or how to hurt for you
Life's pain has gone some where
And I've finally hanging it there
I fell out, out of you and me
Your fading from you
And your falling into history
I fell out, out of you and me
Your fading from you
And your falling into history
Falling into, falling into
We're falling into, falling into history
I fell out, out of you and me
Your fading from you
And your falling into history
I fell out, out of you and me
Your fading from you
And your falling into history
I'll be alright by my self
And no one's gonna tell me
I'm defined, confined by love
